ARMY RESERVES MOBILIZING

Orders for the Reassembling of Parlie ment-Every Wheel of Governmen Machinery in Motion.

London, Oct. 9 .- Whatever may be the result of Great Britain's controversy with the South African republic, every department of the government today is as busy as though actual hostilities had begun. The electric flash that announced the mobilization of the army reserves and the summoning of an unfriendly shore and were taken parliament, set every wheel of the government machinery in motion. An hour after the Gazette appeared, executive orders were being disputched from the war office to every section the kingdom, and the 10,000 bulleti which appeared posted throughout t.

Mr. Wessels, member the Cape assembly for Vryburgh, was also a passenger by the Mexican. In the course of an interview, Mr. Wessels declared that he saw no way to avert war between Great Britain and the Transvaal, and, if not long, it would be terribly severe. He believed it would be impossible to restrain the younger Dutch residents of Cape Colony, with whom blood would prove thicker than water. Natives of the New Hebrides Boasts

Vancouver, B. C., Oct. 9.-A remarkable story of cannibalism was brought to Sydney, Australia, a few days before the sailing of the steamer Aorangi to this port, by the French steamer Jeanette. The victim of the display of savagery was a native of Hawaii, named Amaru, who acted as

orderly to the immigration department

at Noumea, in the New Hebrides. About six months ago Amaru married a native woman of Aoba, in the New Hebrides group, and on passing that island on the second day of th voyage of the Jeanette to one of the outlying islands, he decided to visit his wife's tribe. Accordingly the couple were put off in a small boat, and it was nly a few weeks ago that the steame nade a second call and learned their fate. By mistake they had landed on

prisoners. The man was tied to a stake and his corture begun. This consisted first in allowing vicious jungle snakes from which the poison fangs had been re-moved to attack the man's legs. Then a fire was made at his feet and his legs were horribly burned, though he injury was superficial so that the victim would not die under the treatment. Then he was made the target for the spears of the tribesmen, who finally killed him. He was torn to pieces and placed over a fire with two

Portland an Interesting City to Visit.

NUMEROUS SIGHTS TO SEE

The Great Fair Opened September 28 and Will Run Afternoon and Evening to October 28.

The Oregon Industrial Exposition, which is now in full blast at Portland, is the most successful enterprise of its kind ever held in the Northwest. Everything about it is on a grand scale, as well it may be, for no expense has been spared to make everything connected with it first-class. every respect. To accomplish this result it was necessary to invest \$12,000 as a starter, and this amount was

quickly forthcoming. The enterprising business men of Portland went down

into their pockets and produced the

cash, for they recognize the fact that

the fair is a great object-lesson, an educator, and instructor—an enterprisa The products of every section of the Northwest are freely given place in the exposition at Portland, and the mines, farms, fields, factories, forests and fisheries all make a grand showing, and there are grains and grasses that any part of the world may be well proud of Colonel H. C. Dosch, Col. R. C. Judson and Louis M. Spiegl have collected together and have on exhibition thou-

sands of specimens of grains and grasses and fruits and vegetables raised in the Northwest, all of which make a splendid showing for this rich region. Among the many things seen at the exposition in Portland may be menoned the mining exhibit. Tons of ore, all showing just where it came from and its value is shown, been collected by J. P. Marshall, and there is a reproduction of a quartz mine, with its big timbers, shafts and tunnels, built by J. F. Batchelder, of the Portland Railway Co., who is a

practical mining engineer. In a large illuminated cave is a complete fish hatchery, in which young salmon may be plainly seen in all stages of hatching out, and there is a full grown Royal Chinook salmon always on exhibition.

There are a great many sights to see at the exposition. The realistic re-production of Multnomah falls is worth going miles to enjoy, and it is a great success. The real water, with the whole of Bull Run river behind it, falls 80 feet; and the rustic bridge is there pools, and ferns and mosses and big, live fir trees. The falls are attracting great crowds and will run all the tim to the closing, October 28.

Portland is a very attractive city

visit, and it has such a splendid street

car system that the stranger can see the business section, the attractive homes and the splendid suburbs all on a single 5 cent fare, while comfortably eated in open electric cars. Two car lines pass the door of the great exposi-tion building, in which the great fair of the Northwest is held-the City & Suburban line and the Washington street line-and all the stranger has to do is to take a car which is plainly marked, "Direct to the Exposition." The war museum, which is under the direct supervision of Captain E. S. Edwards, Colonel D. M. Dunne and General O. Summers, is a grand sight to see. It was the carrying out of a brilliant idea suggested by Dan McAllen, one of Portland's most patriotic and enterprising business men, and it will be the means of adding many dol-

lars to the fund being raised to the Oregon volunteers who lost their lives during the recent wars. The immense exposition building at Portland has been vastly improved in every part of its interior, and is gay with flags and bunting, and at night presents a scene of splendor rarely equalled. It has 3,500 electric lights,

and presents a picture to be long re-Washington, Oct. 9 .- Acting Secre tary Allen has prepared the statement of estimates which will be submitted to ongress for the maintenance of the naval establishment for the next fiscal year. These amount to \$73,034,083. which is an increase over the appropria tion for the current year of \$24,537,187. Included in the increase for next year are appropriations of \$12,268,474 for public works and navy-yards and stations. There is also an estimate of

\$2,021,000 for the new naval academy. Boston, Oct. 9 .- The Spanish mini ter, Duke D'Arcos, who has just left his house at Manchester, said with regard to the reception being given Ad-

miral Dewey: "It does not surprise me in the least, Admiral Dewey is a brave and noble man, and for the extraordinary service he has rendered his country no honor that can be shown him in return is too great. He has aroused the admiration of the whole world by the gallantry of his conduct, and he would be a small man, indeed, who could not recognize his merit and give free expression to his admiration for Dewey's valor."

New York, Oct. 9 .- The Tribunsays: Surprise and interest have been excited in shipping circles by the news that within the last three days some 85 vessels engaged in the trans-Atlantic trade have been chartered by the British government for periods of three months and upwards. Among the ships chartered are a number belonging at the offices of the lines in this city.

To Protect Americans. New York, Oct. 9 .- A special to th Herald from Washington says: Immediately upon the outbreak of hostilities between the Transvaal and Great Britain instructions will be sent to Commander John P. Merrell, commanding the cruiser Montgomery, directing him to proceed with his vessel to Delagos bay and provide such pro-tection for American citizens and their

BRADSTREET'S REVIEW.

Distributive Trade Is Still of an En-

Bradstreets says: Distributive trade, while smaller at some markets, is still of encouraging volume, industry is ac-tive, railway earnings heavy, prices still tend upward and bank clearings increase, while failures lessen. Fall festivals and other celebrations at sev-eral cities have had an appreciable effect upon retail trade, and proved a stimulating factor in wholesale lines. industrial activity is widespread, and trikes are fewer and less costly than in most years. Though lessened by holidays, bank clearings, swelled partly by heavy October disbursements and partly by general business expanding,

and to enlarge as the season advances Business failures are apparently at minimum, and liabilities are certain less costly than for many years past. Prices as a whole manifest aggressive strength. Farm products are especial-ly prominent in this direction, the South's greatest staple, cotton, owing to short crop, advancing, and, owing to active speculation leading in extent of gain with an advance of nearly 1/2 a cent for the week, of nearly 2 cents as compared with a year ago and of quite 21/2 cents as compared with the low water price touched in the season of 1898-9.
